Your Answers:

1 5 / 5 points Fill in the Blank

Consider the following tree

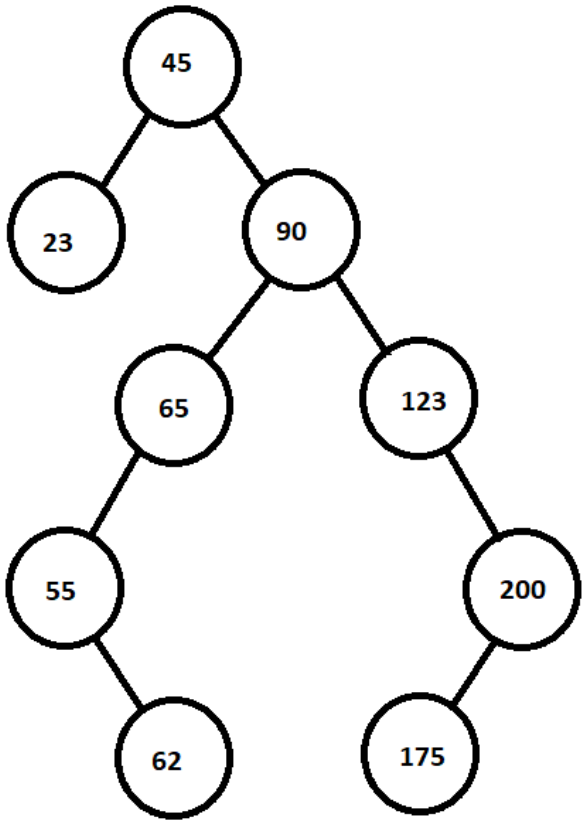

What is the level of the 55 node?

(response not displayed)

2 5 / 5 points Fill in the Blank

Consider the following tree

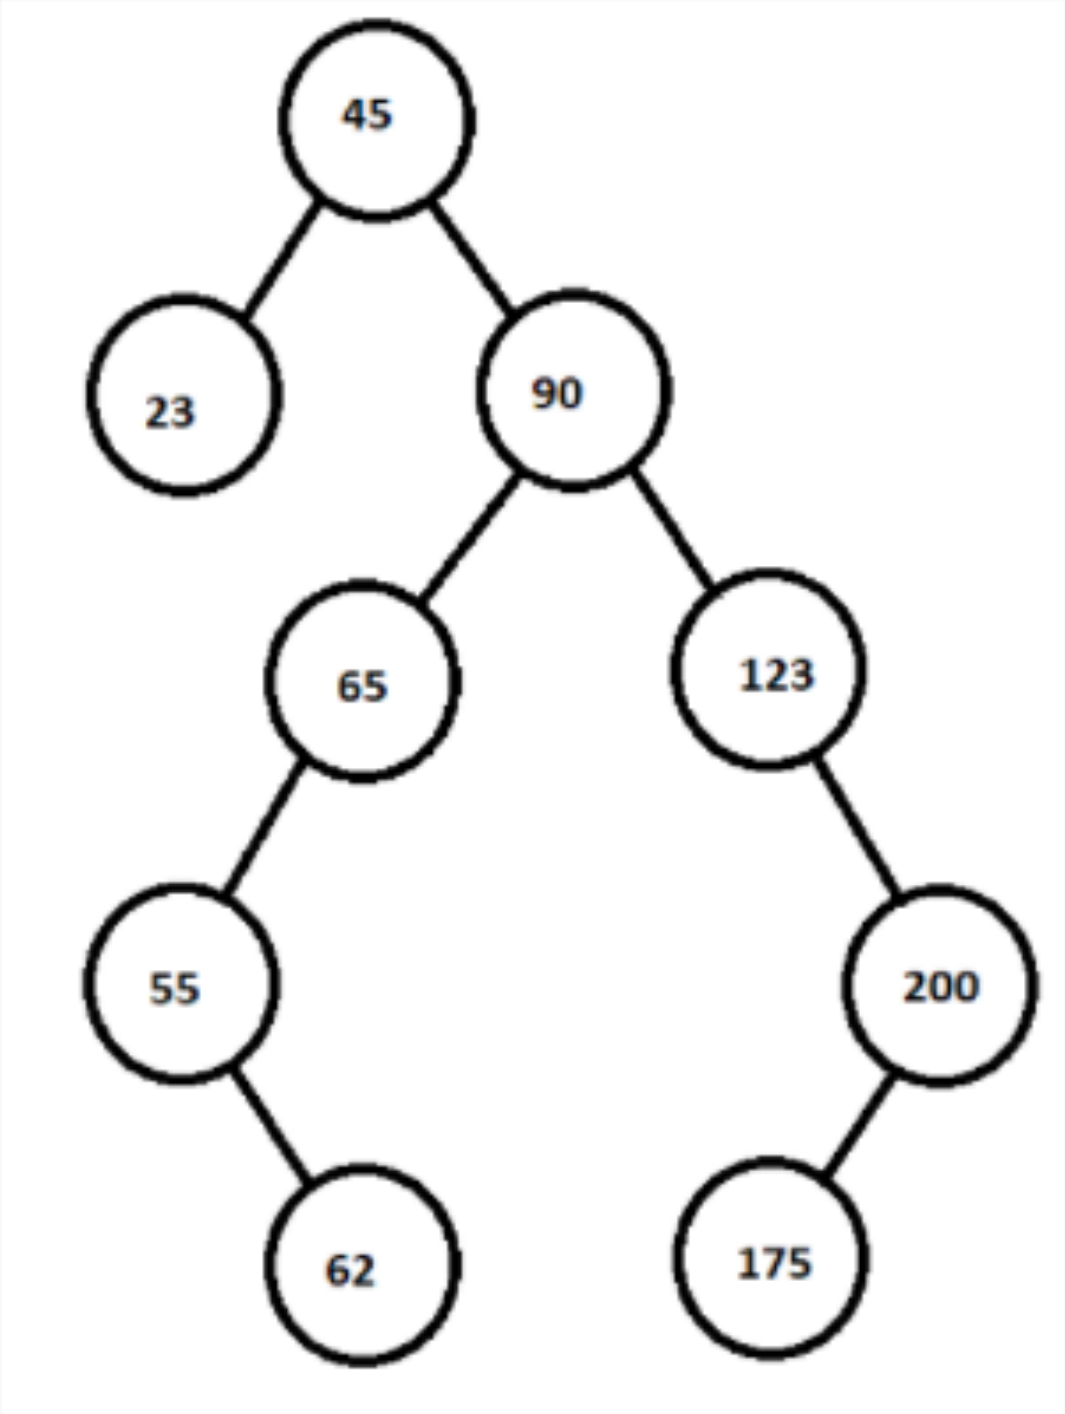

How many nodes of degree two are there in the tree?

(response not displayed)

3 5 / 5 points Matching

Consider the following tree

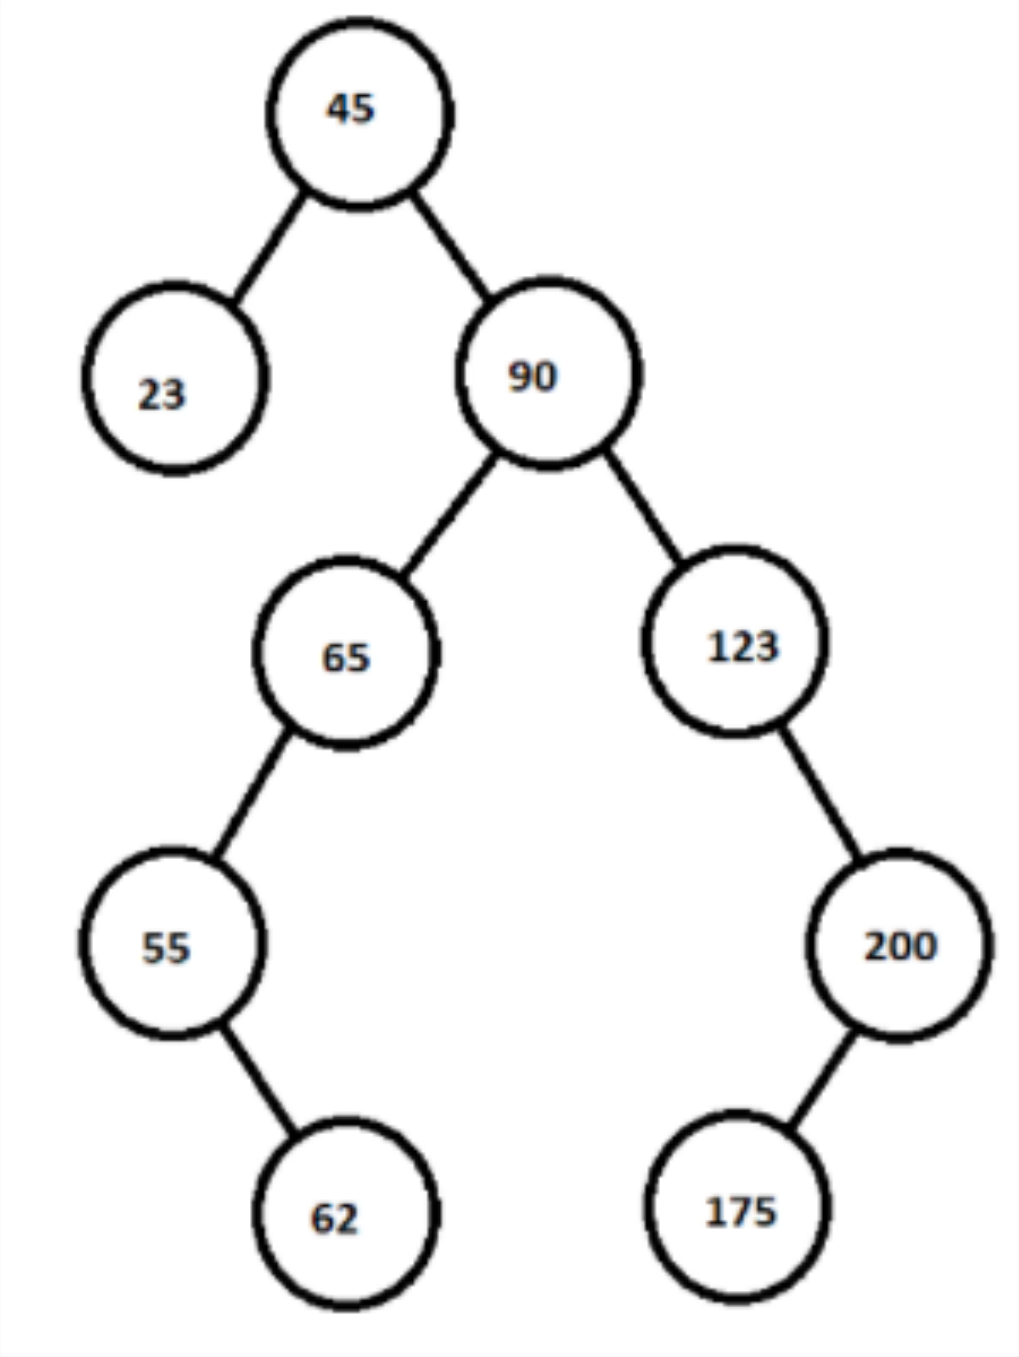

Show the preorder traversal

[1]	[2]	[3]	[4]	[5]	[6]	[7]	[8]	[9]

1	(response not displayed)
2	(response not displayed)
3	(response not displayed)
4	(response not displayed)
5	(response not displayed)
6	(response not displayed)
7	(response not displayed)
8	(response not displayed)
9	(response not displayed)

4 5 / 5 points Matching

Consider the following tree

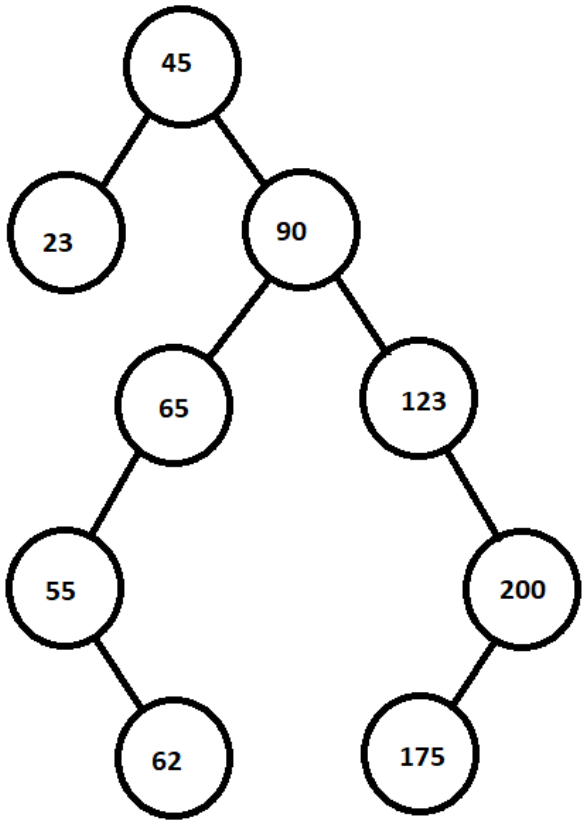

Show the postorder traversal

[1]	[2]	[3]	[4]	[5]	[6]	[7]	[8]	[9]

1	(response not displayed)
2	(response not displayed)
3	(response not displayed)
4	(response not displayed)
5	(response not displayed)
6	(response not displayed)
7	(response not displayed)
8	(response not displayed)
9	(response not displayed)

5 / 5 points Fill in the Blank

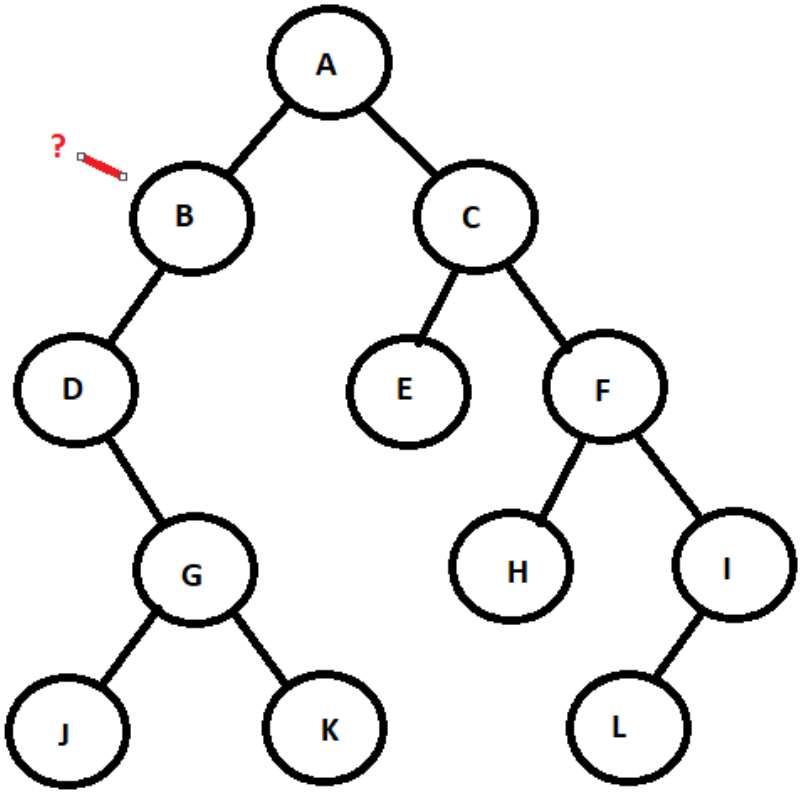

Consider the following tree

What is the diameter of the tree?

(response not displayed)

6 7.5 / 7.5 points Multiple Answer

Identify the marked item [?].

- [ ] root
- [ ] parent, internal node, inner node, branch node
- [ ] left child
- [ ] right child
- [ ] edge
- [ ] sibling
- [ ] leaf, outer node, terminal node
- [ ] path

(response not displayed)

7 7.5 / 7.5 points Multiple Choice

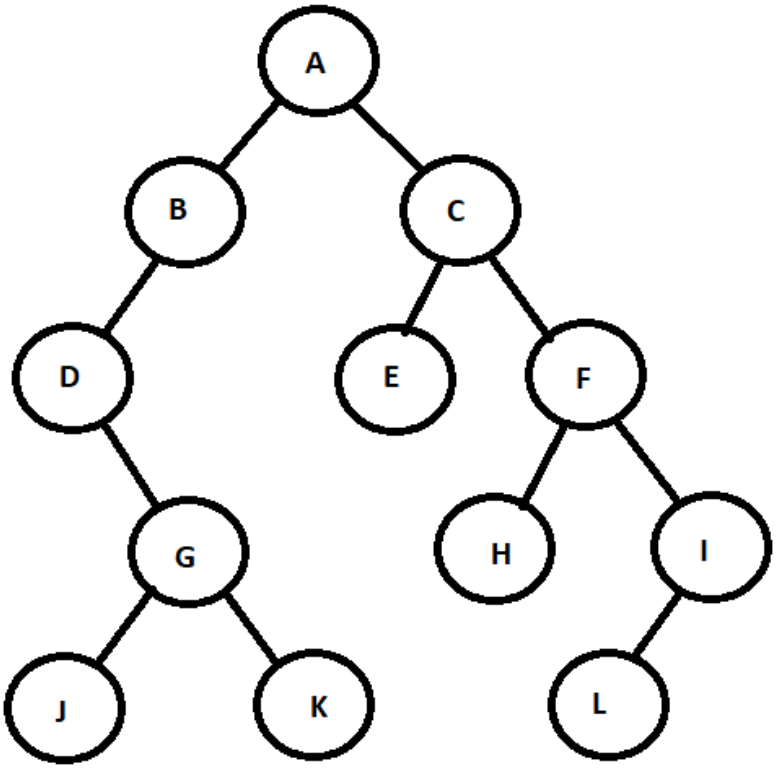

What is a complete tree?

- ( ) A tree that whose left subtree and right subtree heights differ by no more than 1 level

- A tree whose only have nodes of degree 0 and degree 2
- A tree whose levels are at maximum width, with the exception of the lowest level where all the nodes in that level are as far left as possible
- A tree whose leaves are at the same depth.

(response not displayed)

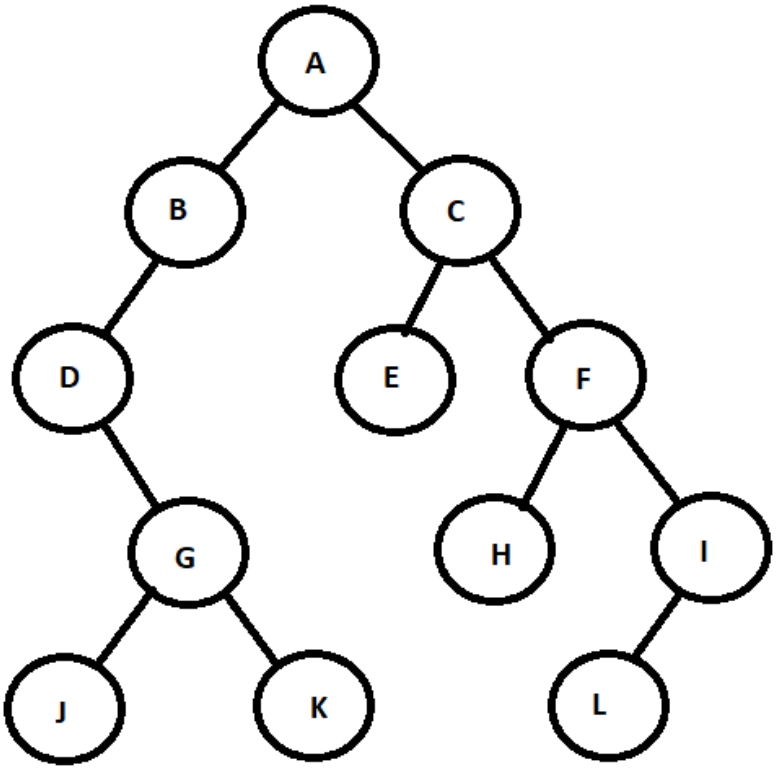

8 7.5 / 7.5 points Fill in the Blank

What is the width of this particular tree?

(response not displayed)

9 7.5 / 7.5 points Fill in the Blank

What is the level location of node J

(response not displayed)

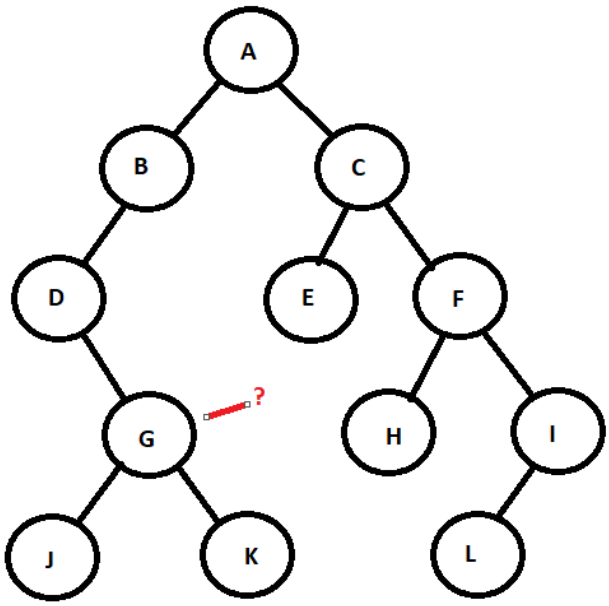

10 7.5 / 7.5 points Multiple Choice

What type of traversal will print out the entire left subtree before printing the root followed by printing out the entire right subtree?

- preorder traversal
- inorder traversal
- postorder traversal
- level order traversal

(response not displayed)

11 7.5 / 7.5 points Multiple Answer

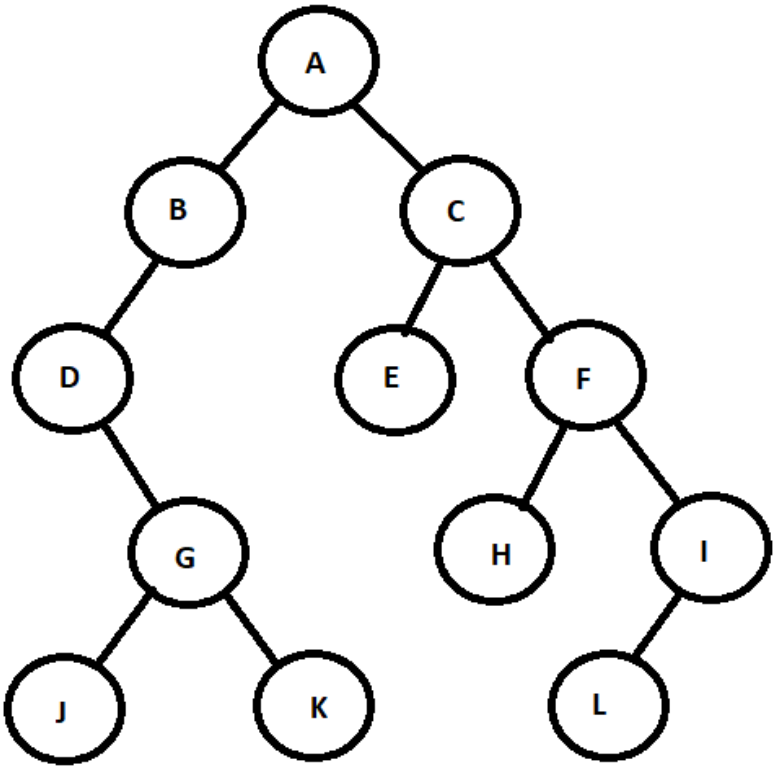

Identify the marked item [?].

- [ ] root
- [ ] parent, internal node, inner node, branch node
- [ ] left child
- [ ] right child
- [ ] edge
- [ ] sibling
- [ ] leaf, outer node, terminal node
- [ ] path

(response not displayed)

12 7.5 / 7.5 points Multiple Answer

Identify all the nodes of degree 0.

- [ ] A
- [ ] B
- [ ] C
- [ ] D
- [ ] E
- [ ] F
- [ ] G
- [ ] H
- [ ] I
- [ ] J
- [ ] K
- [ ] L

(response not displayed)

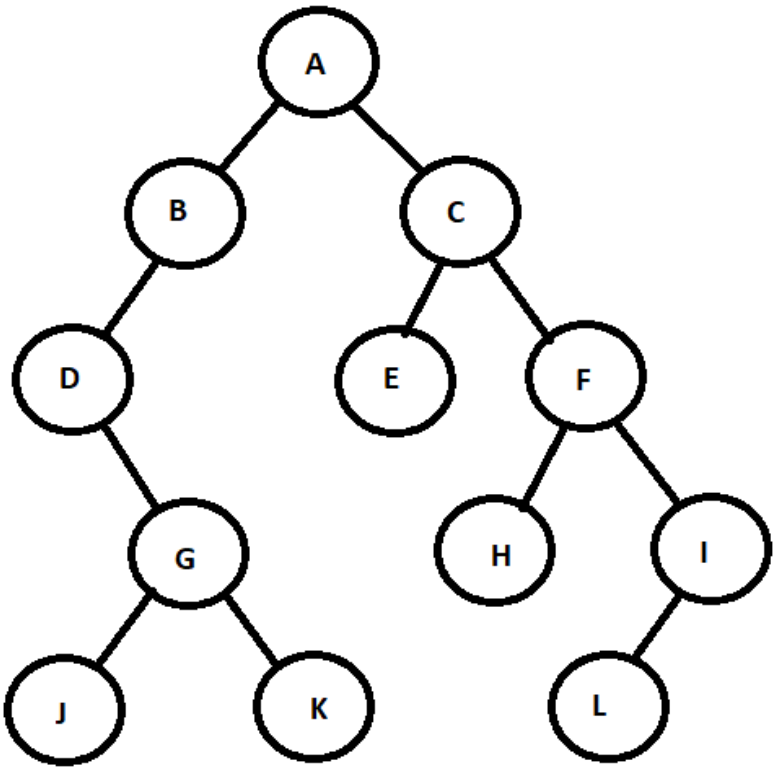

13 7.5 / 7.5 points Multiple Choice

What is the worst case scenerio for a binary search tree?

- ○ The values being placed into the tree are a sorted set of values
- ○ The root is the smallest/largest possible value among the set of values
- ○ the root is the median value among the set of values
- ○ The values being placed in the tree are an unsorted set of values

(response not displayed)

14 7.5 / 7.5 points Fill in the Blank

What is the level location of node B

(response not displayed)

15 7.5 / 7.5 points Multiple Choice

What type of traversal will print out the root first and will print the entire left subtree before printing the entire right subtree of a binary tree?

- ○ preorder traversal
- ○ inorder traversal
- ○ postorder traversal
- ○ level order traversal

(response not displayed)
